Professional Summary

A dedicated Software Engineer with one year of professional experience developing and maintaining cross-platform mobile applications using .NET MAUI within Agile teams. Demonstrated ability to deliver high-quality, production-ready code and collaborate effectively with designers, backend engineers, and product management. Offers a solid foundation in C# and .NET stacks as well as familiarity and experience with many other languages. Strong communication skills through customer service, and a proven commitment to continuous learning and growth in the field of software development.

Core Competencies

- Software Development Life Cycle (SDLC)
- Agile & Scrum Methodologies
- Cross-Platform Application Development (Android & iOS)
- Version Control: Git, SourceTree, Github
- API Integration
- Testing: Manual & Automated (Selenium, JIRA)
- Languages: C#, C++, Kotlin, Python, JavaScript, HTML, CSS, Bootstrap
- Database: MySQL, RealmDB

Professional Experience

Software Engineer

Legrand – Wattstopper 

Provo, UT

May 2024 – June 2025

- Developed and enhanced features for cross-platform mobile applications using .NET MAUI, supporting both wired and wireless IoT lighting devices and sensors. Integrating 3rd party APIs
- Collaborated with developers and product managers to ensure timely and successful delivery of program increments and sprints.
- Utilized Git and SourceTree for efficient version control and team collaboration.

Software QA Intern

Legrand 

Pleasant Grove, UT

February 2022 – May 2024

- Performed comprehensive testing to identify and resolve software defects, ensuring consistent quality in releases.
- Worked closely with developers and product managers to design detailed test plans and cases aligned with project requirements.
- Executed regression, functional, and performance tests—both manually and through automation.
- Documented and reported bugs via JIRA, collaborating with engineering teams to prioritize and resolve issues efficiently.
- Assisted in creating and maintaining automated test scripts with Selenium and other tools.

Education

Bachelor of Science in Computer Science

- University of Utah 
 - August 2016 – May 2024
- I earned a track in Software Development with coursework and projects in AI, mobile development, web development, and databases.

Certifications & Licenses

-  Commercial Driver's License (CDL)

Additional Experience

Social Media Intern with over two years of team-based work experience, emphasizing communication and customer service.

Developed a business website using WordPress, focusing on HTML and CSS markup.
